G. H. HONSHILL, Gen. Supt.

LOCAL NOTES.

Dr. Gaff, Benson—Physician and surgeon.
Silver is quoted at 68 1/2.
Wm. Vaughan was in today with a bunch of cattle for C. L. Cummings.
There are 205 inmates in the Yuma penitentiary the largest number in its history.

Mrs. G. G. Berry, formerly of Tombstone, is reported running a fashionable hotel in Los Angeles and doing well.

Tombstone is on the verge of an ice famine—little or no ice to be had today. A heavy shipment is expected tomorrow.

C. E. Russell, Western Union line repairer, and repaired the line which had fallen in many places.

Deputy Constable, Wm. Raus, of Benson, brought in a Mexican prisoner from that precinct yesterday for Hotel De Fly. He will be a guest for 50 days for carrying concealed weapons.

Mrs. C. A. Overlock, who was a visitor to Tombstone for the past several days, returned to Bisbee today. Mrs. Overlock has many friends at her former home who will always welcome her visits.

"It is with pleasure I tell you that by one day's use of Chamberlain's Cough Remedy I was relieved of a very severe cold. My head was completely stopped up and I could not sleep at night. I can recommend this remedy. Chas. M. Gifford, of Reddy, Fresno Co., Cal." A cold nearly always starts in the head and afterwards extends to the throat and lungs. By using this remedy freely as soon as the cold has been contracted it will cure at once and prevent it from extending to the lung. For Sale by Tombstone Drug Store.

Awarded Highest Honors—World's Fair, DR.

THE SANTA ROSA.

Another Old Tombstone Ha Struck it Rich

The Santa Rosa mine, in the Arizona district of Sonora, located ten miles west of Nacozari and twenty miles east of Arizpe, is one of the best managed and most promising properties in Sonora. It is the property of Kirk, Brothers & Co., gentlemen widely known in Arizona, having operated many years at Tombstone, Prescott and other camps. It is opened by an incline shaft with a pitch of about 45 degrees, and the ore extracted in development has paid the cost of the dead work. They have some 2,000 feet of work and have developed a fine body of high grade silver ore. It is all shipped to the smelter via Nogales.

The above mine is one upon which Treasurer Vickers and W. C. Green expended several thousand dollars and later abandoned it. Mr. Kirk then located it and after several months of "dead" work struck a bonanza, and is asserted by Mr. Green, who was in town several days since, to have nearly \$500,000 worth of ore in sight, and is now negotiating for the erection of a big mill. A large number of men are employed and ore has been regularly shipped via Nogales to the El Paso smelter.

How to Cure Rheumatism.

ARAGO, COCHISE CO., OR, NOV. 10 1893. I wish to inform you of the great good Chamberlain's Pain Balm has done my wife. She has been troubled with rheumatism of the arms and hands for six months, and has tried remedies prescribed for that complaint but found no relief until she used this Pain Balm; one bottle of which has completely cured her. I take pleasure in recommending it for that trouble. Yours truly, C. A. BULLOCK. 50 cent and \$1.00 bottles for sale by Tombstone Drug Co.

There was no eastern mail last night on account of the west bound S. P. train being behind time at Benson two hours.

The 16 mule team taken from here to Congress and used to haul ore will now be needless since the branch line has been completed. The team will be returned to Tombstone within a week or two.

Mr. Pearce and wife were in town today from the ranch. Mr. Pearce states he has sold his ranch and cattle to the C. C. Co. and himself, Mrs. Pearce and son expects to make a trip to California. Mr. Pearce returning after the summer season.

At Fort Mohave the government thermometer registered 126 degrees in the shade Saturday and 127 1/2 on Sunday—the hottest weather experienced at that point in 39 years or more.—Needles Eye.

The territorial board of education met in Phoenix June 20. Educational diplomas were granted to F. J. Nether-ton, of Phoenix, and to Ida F. Williams of Prescott, and first grade territorial certificates to Mary F. Walker, Mercedes A. Shihell, Carrie L. C. de, Marie Tipton and Louise Owsley.

This office is in receipt of a copy of a new monthly magazine called "Practical Irrigation and Fruit Growing." It is published by James Kibbee, at Roswell, New Mexico, and is an interesting as well as instructive journal.

An exchange says that one trouble with this world is that there are too many people in it who will not eat their bread upon the water unless they are assured that it will come back in a few days a full grown sandwich all trimmed with ham, butter and mustard.

From all appearances there was a heavy rain in the Husachu mountains and down the range of mountains west of the Whetstone; heavy lay to the south and southeast, also, apparently giving that section a good soaking rain. The electric display was beautiful.

A runaway caused a little excitement today in front of Cumming's butcher shop. A horse hitched to an awning door suddenly became frightened, pulled the post from its fastening and started to make a dash down Fremont street. A small Mexican who was driving the horse ran along side of him and at the risk of his life grabbed the reins and held fast until the animal stopped.

A Mississippi experiment station bulletin says: Canisgre, which is now attracting so much attention in Arizona and California, has been grown here two years, but with unsatisfactory results. The root is used in tanning leather, and the plant is much like the ordinary "Yellow Dock" in its appearance, being nearly related to it botanically. It is a native of the arid regions of the southwest, where it makes its best growth during the cool and occasionally damp weather of winter, remaining dormant through the summer. In this region the winter rainfall is so heavy that the plants suffer from the excessive moisture, their growth is weakened, and the roots contain a much smaller percentage of tannin than when grown in the drier and hotter climate of which they are native.

The Discovery Saved his Life.
Mr. G. Caillouette, Druggist, Beaver ville, Ill., says: "To Dr. King's New Discovery I owe my life. Was taken with La Grippe and tried all the physicians, but of no avail and was given up and told I could not live. Having Dr. King's New Discovery in my store I sent for a bottle and began its use and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We won't keep store or house without it. Get a free trial of the Tombstone Drug Store."

EXECUTIVE CLEMENCY.

Two Poor Fellows Receive a Reward for Industry.

Two inmates of the prison at Yuma were on Tuesday pardoned by the governor says the Gazette. Both were woodchoppers, who, during the administration of the former governor and superintendent were assigned a task at the completion of which they were to receive the olive branch of executive clemency. They both went to work chopping willow wood on the prison farm and they now have completed the task assigned.

One of the men is John Foy (colored) sent from Cochise county, having been convicted for assault with a deadly weapon. He had two years yet to serve and chopped 200 cords of wood for his liberty. The other is Cleto Alverado, a Mexican, convicted of burglary in Pima county and sentenced to serve six years, four which were already behind him. His task was 100 cords of wood. The superintendent recommended pardon in both cases for exemplary conduct in addition to their industry.

W. O. Abbott has again opened for business in a saying at his new quarters and residence, the Overlock house. Mr. Abbott is a thoroughly competent and obliging assayer, and has many friends who are glad to see him shy his caster in the ring again. See his ad in another column.

The Phoenix Herald says a settlement has been arrived at between Dr. Hamblin, the old Superintendent of the Insane Asylum and Dr. Hughes, the new appointee. According to the agreement reached, Dr. Hamblin will resign on the first of July and give personal possession to Dr. Hughes.

Mr. G. H. Honshill has resigned his position as general superintendent of the M. & P. railroad and will be succeeded by Mr. Edward Shamp, lately of Fresno. It is understood that Mr. Honshill will go to Tucson, there to relieve Superintendent E. Randolph for this office of the management of the Arizona division of the Southern Pacific.

An immense amount of wheat is now coming into market and daily big teams and three wagons drive to the big ware houses or mills to stow away the newly threshed crop. At the mills \$1.25 per hundred is the ruling price, while much is bought by dealers from the Indians at \$1 to \$1.10. As wheat brings \$1.14. Barley, too, is plentiful at about 80 cents. The cereal crop is heavy and prices start off a little higher than last season.—Gazette.

A very sad news item came from the Carrizozo sent the death of two K. troop men of the Second cavalry, U. S. A. formerly stationed at Ft. Huachuca. The Gallup Gleaner says two of the troop were detailed for some duty and went away with a pack mule. They failed to return at the expected time and scouting parties were sent out. One party discovered the dead bodies of two men and the mule. They were the victims of thirst and hunger. They doubled a lost their way and wandered in the awful delirium of thirst until utterly exhausted.

FIRST EXPLANATION.

One Delegate Tells How it All Happened.

Col. J. A. Zabrickie, one of the delegates to the St. Louis convention, has returned to Tucson. To a Star reporter he gave an explanation of the reason the Arizona delegation did not bolt with Senator Teller, and says: "The scene in the committee on platform was stormy. The western delegates made a stubborn but unavailing fight for silver. "The departure of Senator Teller and his associates was a pathetic event. He would have been accompanied by the Arizona delegation in a body but in a previous conference when the subject was touched upon Teller said: "There is no need of your going out; you would not be able in the territories to assist us with your votes. Your going would be inexpedient and by remaining you may retain needed influence with the administration. We know you are with us in the spirit and the time may come when your services in the cause of silver may be made available."

An "interesting thing occurred during the vote on the adoption of the gold plank. When the name of Ulysses Grant of the California delegation was reached, he cried "No" in a voice which rang through the convention hall. Immediately business was suspended while the vast audience regardless of silver or gold, cheered the name of Grant."

NOTICE.

To the traveling public:—Notice is hereby given that after July 1st. I will have severed my connection with the Arlington House and having secured the McHenry house opposite the Vixins Co. Office and fitted it up for the accommodation of travelers. I respectfully ask a continuance of your liberal patronage.

MRS. H. EASTMAN.

The World's Fair Tests
showed no baking powder so pure or so great in leavening power as the Royal

Weather and Crop Report.

Weekly crop bulletin, Phoenix, Arizona: The weather has been unusually warm, with a slight lowering of temperature during the latter part of week; the extreme ranging from a maximum of 100 to 104 and 105 in the more elevated northern counties, to 115 to 127 in the lower southern and western section. Rain fell in the eastern portion of the territory in mountain ranges; from trace in the northeast to 0.13 in the southeast. Oro Blanco reporting the latter amt. The rain came in the form of showers accompanied by thunder and lightning.

Cochise County—Another hot week. It is without doubt the hottest ever experienced. Irrigated crops look well but dry crops are almost a failure. Ranges are dryer than ever and cattle are suffering severely. Water scarce. The last shipment of cattle for the season has been made.

Notice.

A meeting of the Tombstone Fire Department is called for Sunday evening 7 o'clock, at Rescue House, for the election of chief of the Fire Department, a Steward and other matters coming before the meeting. By order of COMMITTEE.
